## PERSONAL STATEMENT

An ambitious Website developer, Website Designer, S.E.O Expert, graphic Designer and who would like to join a team of like-minded developers. A good experienced and creative web developer with more than 07 years work experience in a variety of exciting projects. Technically competent and industry aware means that each project is undertaken with the most up-to-date and relevant programming foundations available. A strong communicator with the ability to convey ideas clearly with an emphasis on client satisfaction.

My background in design, web design, marketing and strategy have helped give me a diverse perspective on creative thinking. I'm always looking to connect with more people and learn more while creating work that speaks.
